Mission Statement

To enrich the lives of individuals with developmental disabilities and their families through support, programs and advocacy.

The Arc of Omaha is a member agency of the United Way of the Midlands and a Chapter of The Arc of Nebraska and the U.S.

Celebrate Developmental Disabilities Awareness Month

March 1st was an exciting day for several citizens with developmental disabilities participating in the “Birthday Our Way” capital celebration organized by the Nebraska Association of Service Providers (NASP). Ollie Webb Center, Inc. staff and board member Joe Valenti partnered with four individuals representing the organization to take part in a legislative training and resolution introduction event recognizing March 2018 as Developmental Disabilities Awareness Month while also honoring the State of Nebraska’s birthday and birthdays of Nebraskans with developmental disabilities in Lincoln.

The day started with an informative training session that included updates on current legislative bills that will impact those with developmental disabilities and concluded with a segment on how to effectively communicate with senators and advocates. After the training, each person had the opportunity to talk with a senator from their local district about adult developmental disability services and was able to observe a legislative session. Individuals enjoyed participating in conversations with senators sharing stories about their own experiences and advocating to either support or oppose a specific legislative bill based on the impact it will have on citizens with developmental disabilities.

Participants joined numerous senators, including Senators Bolz, Crawford, and Walz as they proclaimed March 2018 as Developmental Disabilities Awareness Month and several citizens with disabilities and their families were recognized as the proclamation was read. Matt Morrison, who participates in Ollie Webb Center, Inc.’s vocational day services program, had the opportunity to be interviewed by Lincoln’s Channel 8 news regarding his experience and shared that his favorite part of the day was meeting with and discussing disability topics with several senators.

Pictures from the event can be found on Page 8.

Have you heard?.... You need to get on THE LIST!

In Nebraska, parents of children with an intellectual or developmental disability often hear, “You need to get on THE LIST!” What is this list? Why are we told to get on it even when my child is young?

In Nebraska when students receiving Special Education Services exit the school system at age 21, they are eligible for Developmental Disability Day Services. Additionally Residential Services are available to adults in the order that they were put on the Waiting List Registry of Unmet Needs, otherwise known as The List. It is for this reason and because our state legislature reviews the number of people on the list to determine future budgeting, that you should get your family member on the list as soon as possible. A person with a disability can be put on the list AT ANY AGE, this includes infants.

How to request to get on the Developmental Disabilities Waiting List Registry of Unmet Needs:

The application for DD Services is now available on the ACCESSNebraska website.

https://dhhs-access-neb-menu.ne.gov/start/application/publik/dd/Welcome.xhtml?tl=en

This application primarily asks questions about the person with disabilities. It includes a check list of documentation that may be needed to confirm the diagnosis and consent for DHHS to request information from doctors, schools, psychologists etc. There should not be any questions about family income as it is not a factor in becoming eligible.

You might ask; “How will residential services benefit my family member with intellectual or developmental disabilities?

Residential services can provide support to the individuals with disabilities in their home and services that assist the person with disabilities to gain independent skills. Residential Services can also be funding for a residence other than the family home.
SOCIAL MEDIA 101
Supporting Individuals with Special Needs on Social Media

Those of us that support individuals with disabilities want to be able to use the most modern technology to offer assistive technology to our family members with special needs. And they, like their typical peers, want to be included and involved in Social Media.

Now more than ever, it is time for parents to get smart about technology and social media. We must keep our families safe from the pitfalls of being connected 24/7.

This workshop will be instrumental in educating and inspiring parents to have meaningful conversations, make informed decisions about their family’s technology and social media usage and provide guidance in using social media to adults with disabilities.

In this workshop, you will learn about: Instagram, Snapchat, MusicI.ly, Facebook, Twitter, FOMO, Geotagging, Six-Clicks, digital footprints, COPPA, and more.
